

Call for Papers

3rd International Conference on Remanufacturing (ICoR-17) 24-26 October 2017 in Linköping, Sweden

Linköping University will together with University of Strathclyde host the 3rd International Conference on remanufacturing (ICoR). ICoR-17 follows previous successful ICoR conferences that were held in Glasgow 2011 and in Amsterdam 2015. This conference targets international participants from academy and industry to meet and learn more about the latest research and industrial trends within remanufacturing.

Conference topics

The ICOR-17 conference has a remanufacturing focus and can deal with many topics related to remanufacturing e.g. business models, economic aspects, ICT, industrial marketing, innovation, legal aspects, organisational issues, process design, education and training, B2B, B2C, quality management, sustainability, resource efficiency, design for remanufacturing, core acquisition, reverse logistics, digitalization, information management, and lean remanufacturing.

Industrial visits

Industrial visits to remanufacturing companies will be performed during the conference to local remanufacturing companies. Visits are planned to Toyota Material Handling (forklifts) and Siemens Industrial Turbomachinery (gas turbines).

The Springer Journal of Remanufacturing

Selected papers will also be published in the Journal of Remanufacturing.
